

SOCIAL MEDIA GUIDELINES

Every student athlete and coach at Christian High School has the responsibility to represent our athletic program at the highest level. Our reputation as a school and athletic program is valuable to us and to our community.

We ask all student athletes and coaches to consider this in regard to the use of any and all social media.

Dishonorable content such as racial, ethnic, sexual, religious and physical ability slurs are not tolerated. This includes any and all forms of hazing, bullying or negative references to other individuals or schools. Such activities will be grounds for administrative review and/or possible removal from a team. We require that all student athletes and coaches refrain from posting, commenting or sharing any information on social media that is negative or would violate the guidelines set forth in the Christian Unified Schools student, faculty or coaching policies.

Additionally, no posting, sharing or commenting on any material that references alcohol, drugs or sexual activities is acceptable.

As a student athlete and/or coach at Christian High School, I understand the importance of our reputation and the use of social media. I agree to the policies and potential consequences listed above.
